#### FAQ's

**Q: Can the kit charge two or more 12 V batteries connected in parallel?**

**A: Yes, it is possible if the batteries have the same type & capacity and are wired in parallel as a single 12V battery bank**

**Q: Is there any risk that the solar kit will over charge my battery?**

**A: One of the functions of the solar charge controller is to ensure that your battery is not over charged.**

**Q: Do I need to clean the solar panels?**

**A: Yes, it is recommended for better performance.**

**Q: Can I place my solar panels anywhere?**

**A: To maximize generation, ensure that the tilt angle of system resembles the latitude of the place.**
