SABRE

SWEET 16

LOADED WITH STANDARD FEATURES

1

HIGH EFFICIENCY
**12 VOLT
DOUBLE DOOR**
REFRIGERATOR

FRENCH DOOR REFRIGERATOR

- 12v Refrigerator
- 16 cu.ft. of storage
- Low amperage draw
- Frost-Free freezer
- Sure-Seal closing mechanism seals tightly to protect your cold storage during travel
- French doors provide beautiful aesthetics and offer easy accessibility

Low Amperage Draw

During start-up and the ~30 minute cool-down phase, amps range from 8.0 to 7.2
Amps drop to 0.1 during closed-door idle time and can reach up to 4.0 to re-cool during maintenance cycle

SABRE

2

WATERFALL WORKSTATION SINK

- This versatile modern sink offers a range of features and accessories.
- The double bowl sink features a two-layer workstation bowl design with sound-absorption technology that guarantees quieter operation.
- Task basket, colander, glass washer, counter-top control strainer, cutting board, soap dispenser.
- Pull-down faucet with a multi-function head, additional waterfall faucet.

SABRE

3

RESIDENTIAL
— **SOLID** —
SURFACE
COUNTER TOPS

SOLID SURFACE COUNTERTOPS

- Solid surface countertops offer a residential feel and are beautifully contoured for your family's safety.
- The smooth and durable surface makes cleaning and sanitizing a breeze.
- The seamless edges prevent all peeling, moisture penetration, and mold.

SABRE

4

DAY / NIGHT ZEBRA SHADES

Zebra Shades give you both a residential style and maximum versatility.

- Gives you the ability to filter natural light at the level of your choice
- Complete blackout capability
- High end style, without sacrificing practicality

SABRE

5

REAL WOOD CABINETRY

In house, custom built cabinetry combines real wood lumber core with true Amish craftsmanship, to provide high quality cabinets with structural integrity and durability.

SABRE

DUAL 15K BTU WHISPER COOL AIR CONDITIONERS

DUAL Air Conditioning units provide a combined 30,000 BTUs with 50 amp service.

- Low Profile
- Dual Climate Control
- Energy Efficient
- Whisper Quiet
- Circular "Race Track" Ducting

SABRE

7

TANKLESS WATER HEATER

Tankless water heater provides endless hot water to owners that are connected to city water or fresh water supply.

- 42,000 BTUs provides the optimum performance for an RV's plumbing
- Quiet, brushless motor
- 12V power operates at less than 3 AMPs
- Freeze protection provides reliable winter use
- Designed specifically for recreational vehicles
- Microprocessor continuously monitors the inlet water flow and temperature
- Digital Control Panel

SABRE

**AMBIENT
LIGHTING****AMBIENT ACCENT LIGHTING**

Kick back and enjoy our relaxing ambient accent lighting.

- Soft White LED is easy on the eyes
- Enjoy ambient lighting featured in kitchen and main living area

**SABRE**

Each Sabre is equipped with a fully interactive touch screen, two independently driven front landing gear legs, and two rear leveling jacks.

This system offers owners the ability to auto level the RV without the use of leveling blocks or the need to manually deploy jacks one at a time.

The easy-to-read, interactive touch screen operates all leveling jacks manually or just press OK and walk away!

- Fast & lightweight system
- User-friendly touchpad, with both auto and manual mode
- Large footpads
- Consistently levels and stabilizes
- Auto reconnect and hitch height memory allows for hassle-free hookup to tow vehicle
- Fully interactive touch screen
- Manual overrides on all jacks

AUTO LEVELING SYSTEM

SABRE

10

VACUUM BONDED LAMINATED WALLS

- Each sidewall and slide wall is cured 15-18 minutes at 144 tons of pressure to provide a stronger bond than our competitor's pinch rolling process
- Double-welded aluminum sidewalls and slides are specifically engineered for each floor plan
- Electro-Galvanized Steel Backers (EGS) are laid in place prior to lamination to provide better screw retention
- Each wall is tested for thorough glue coverage and bonded strength

SABRE

11

TIRE PRESSURE SENSORS

- The indicator on EZ Read Tire Caps alerts you to changes in your tire pressure.
- Even if your vehicle comes installed with a tire pressure monitoring system, not all TPMS show which tire is low. With EZ Read Tire Caps, you can quickly see which tire needs more air.
- Extends the life of tires
- Improves traction & mileage
- Easy to use
- Replaces gauges & dials
- Fits all standard air valves
- Helps prevent flats & blowouts

SABRE

12

SOLAR REFLECTIVE WINDOWS

Solar Reflective Glass Windows provide outside views and more privacy.

- Keeps interior cool by blocking heat from the sun
- 3mm thickness
- Reflective glass provides a beautiful aesthetic compared to clear or tinted glass

SABRE

SOLAR REFLECTIVE WINDOWS

SUPERIOR HEAT CONTROL

Solar reflective glass is specifically engineered to reflect a substantial portion of the sun's rays, significantly reducing the amount of heat that penetrates the interior. This feature is paramount for maintaining a cooler environment inside the travel trailer without overly relying on air conditioning. This capability outperforms dark tint and clear glass, which absorb more heat and can lead to higher interior temperatures.

ENHANCED UV PROTECTION .

While dark tints can offer UV protection, solar reflective glass typically provides superior protection against harmful UV rays. It blocks out a significant percentage of these rays, more effectively protecting the skin and eyes of occupants and preventing the fading and deterioration of interior furnishings, fabrics, and surfaces.

ENERGY EFFICIENCY.

By significantly reducing heat buildup inside the trailer, solar reflective glass enhances the vehicle's energy efficiency. It reduces the need for air conditioning, which not only conserves energy but also extends the lifespan of the vehicle's HVAC system and reduces fuel consumption or electrical usage when stationary. This efficiency is a step up from what dark tint and clear glass can offer, especially in regions with high solar intensity.

PRIVACY AND AESTHETICS.

Solar reflective glass offers a sleek, modern look that can be aesthetically pleasing. During the day, its reflective surface provides privacy from the outside without sacrificing the view from the inside. This dual benefit of privacy and unobstructed views is something that dark tint and clear glass cannot offer at all.

DURABILITY AND MAINTENANCE.

Solar reflective glass is often more durable and scratch-resistant than traditional tinted films applied to clear glass. It's designed for longevity and maintains its reflective properties without the risk of peeling or bubbling, common issues with aftermarket dark tints.

COMFORT AND VISIBILITY.

Solar reflective glass strikes an optimal balance between reducing glare and maintaining visibility. It ensures that the interior is comfortable for the eyes even in bright sunlight, without the excessive darkness that can come from heavy tints, ensuring safety and enjoyment of the scenery.

13

JUICE PACK SOLAR PACKAGE

Each Sabre is equipped with the Juice Pack feature for off-grid support. It includes a 100W roof mounted solar panel (expandable to 750W), series 27 battery, dual battery box, battery disconnect, volt meter and 40AMP solar charger.

- No portable battery box required
- Flip the battery disconnect switch to the "on" position and your Sabre is powered up

SABRE

Our DSLR-C40 Solar controller is optimized the simplest most effective way to install with a 1 -200w panel system or a multi-panel 600w system.

Easy dealer or end user upgrades using our parallel wiring MC4 Y adaptor cables, simply choose to add 1 or 2 extra 200 Watt panels and configure using the correct Y adaptor.

Higher shade tolerance on upgraded multi-panel systems, since panels don't affect each when wired in parallel.

Stabilized voltage: Parallel wiring maintains a consistent voltage that matches the output of a single panel or multi-panel system.

Upgraded system reliability: if one solar panel fails in a parallel system, the other panels continue to operate, ensuring continued energy production and increased system reliability.

OTHER BRANDS

When wired in series, if a solar panel fails, the entire system will be affected and not function to full capacity.

F1 MC4 FUSE

15 AMP MC4 Fuse will protect the wiring coming from the solar panel to the Solar Controller.

F2 ATC FUSE

20 AMP ATC Fuse will protect wiring with current coming out of the Solar Controller going towards the Battery.

F3 ATC FUSE

20 AMP ATC Fuse will protect the wiring connection coming out of the Battery running toward the Solar Controller.

14

Each Sabre is equipped with our Extended Season Polar Package. This includes an insulated, foil-wrapped roof and an insulated, fully serviceable and heated underbelly.

EXTENDED SEASON POLAR PACKAGE

ROOF CONSTRUCTION:

- Thermal Foil Wrap
- 16" On Center Trusses
- 3/8" Decking
- Industry Leading Protective Roof

FLOOR and UNDERBELLY CONSTRUCTION:

- High Density Foam Insulation
- 5/8" Tongue/Groove Plywood
- Ducted Heat to Underbelly
- Enclosed Dump Valves
- Easy Access Underbelly for Full Serviceability

SABRE

15

SECURE SLAM LATCH INSULATED DOORS

- Exterior Slam Latch Baggage Doors
- Sturdy steel construction with rust-resistant black powder coat finish
- Includes 2 latch parts and 1 key
- Component with the handle installs on the front of the door and the other part installs behind the door

SABRE

16

Industry Leading Protective Roof Membrane

INDUSTRY LEADING PROTECTIVE ROOF

- **Lifetime warranty on PVC roof membrane**
- **Maximum protection against water penetration**
- **Highly flexible roof membrane**
- **Virtually maintenance free**

SABRE FRAMES

A STRONG FOUNDATION
IS THE BASIS FOR
STRONG CONSTRUCTION

NXG Frame

The NXG Frame is a superior quality, highly engineered frame that provides customers with a strong, light weight, consistent foundation on which to confidently build the floorplan to your specific design.

PRECISELY ENGINEERED FOR EACH SPECIFIC MODEL

- Mechanically and CNC applied to achieve the desired positive camber, specific to each floorplan
- CNC controlled rail fabrication eliminated inconsistency of frame components, including spring axle hanger placement
- Manual welding is minimized. Common components are robotically welded for consistent quality
- CNC and robotic welding eliminate inconsistent placement of frame component parts.
- **SABRE DOES NOT BUILD YOUR "HOUSE" ON ANOTHER HOUSE'S FOUNDATION**

FULLY PROTECTED FROM CORROSION

- Component parts are painted separately, then assembled.
- E-coated and powder coated which eliminates corrosion caused by incomplete paint coverage
- **COMPETITORS ARE UNABLE TO OFFER FULL PROTECTION FROM CORROSION**

SUPERIOR STRENGTH

- Manufactured with HSLA – High Strength Low Alloy Prime Steel with specifically controlled properties
 - HSLA eliminates frame failures due to sub-standard steel**
 - HSLA eliminates the potential for uneven main rails that cause varying camber and squareness**
- All fastened components are joined with Huck® fasteners. Huck® fasteners provide consistent clamp load
 - Huck fasteners are commonly applied the bridge construction, trucking and aerospace industries.**

ONE YEAR OF FREE ROADSIDE ASSISTANCE

FROM THE DATE OF PURCHASE; NEW UNIT PURCHASES ONLY

Providing safety and convenience for Forest River owners and their families while on the road.

Forest River Roadside Assistance is provided to you FREE by Forest River Inc. for one year from the purchase of a new Forest River RV. Your complimentary first year of coverage includes the following services:

TOWING

TIRE ASSISTANCE*

MOBILE TIRE SERVICE*

JUMP STARTS

**DELIVERY OF FUEL AND
EMERGENCY FLUIDS***

WINCH OUT

RV MOBILE MECHANIC*

DEALER LOCATOR SERVICES

TECHNICAL SUPPORT

**LOCKSMITH/LOCKOUT
SERVICE***

**Customers are responsible for the cost of delivered parts, fluids, repairs, and/or labor.*

If you purchased your RV
PRIOR TO 1/1/2024, call

866-209-2895

If you purchased your RV
ON OR AFTER 1/1/2024, call

800-608-2751

Emergency Roadside Assistance is applicable when you are traveling with your RV or using your RV in a Campground/RV Park and applies for mechanically disabling events.

TOWING

Towing your RV, or the tow vehicle when towing your RV, to the nearest qualified repair facility.

TIRE ASSISTANCE

Changing flat tires using a mounted and inflated spare tire, delivering comparable tires to disablement sites, or towing vehicles to a tire facility. The cost of a delivered replacement tire, alignment, mount and dismount, and balancing is not covered. Customers are responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

MOBILE TIRE SERVICE

In the event of a tire-related breakdown, a mobile tire service company may be dispatched to mount a like tire to the customer's vehicle. Mobile Tire Service is not available in all areas. Towing to the nearest qualified repair facility will be provided if Mobile Tire Service is not available. Customer responsible for all parts and labor fees.

JUMP STARTS

Jump-starting vehicles' dead batteries or towing vehicles to qualified repair facilities.

DELIVERY OF FUEL AND EMERGENCY FLUIDS

Delivering fuel, oil, and water, as necessary, to remedy disablements. Customers are responsible for the cost of fluids.

WINCH OUT

For RVs that can be accessed from an established and maintained road, highway, thoroughfare, or street.

RV MOBILE MECHANIC

Dispatching of a mechanic to the site of mechanically-disabled vehicles. Customer is responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

DEALER LOCATOR SERVICES

Assisting customers to the closest qualified service facility when they're in unfamiliar territory.

TECHNICAL SUPPORT

Features 24/7 technical assistance from our staff of RVIA/RVDA and ASE Certified technicians, who speak directly with customers to troubleshoot operational issues. Should you need emergency roadside assistance, our vast network of providers offers a wide range of services to handle your unique RV.

LOCKSMITH/LOCKOUT SERVICE

Providing locksmith services, opening locked vehicles, and/or obtaining replacement keys. Customers are responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

WHY CHOOSE SABRE?

Quality

Sabre is dedicated to crafting high-quality campers designed for durability and maximum usability. Our commitment to excellence is reflected in our choice of materials and processes, such as 5/8" tongue-and-groove plywood flooring, vacuum-bonded sidewalls, and 2" sidewalls with high-density block foam insulation. These features elevate your camping experience but also minimize future maintenance costs, allowing you to focus on enjoying your adventures.

Luxury

Sabre offers customers a truly luxurious travel experience with our thoughtfully designed, feature-rich units. Enjoy high-end amenities like solid surface countertops, exquisite wooden core cabinetry, and residential-style kitchen appliances, among many other remarkable features. Every detail is crafted to elevate your journey and provide the comfort of home wherever you roam.

Affordability

With Forest River's incredible buying power, Sabre delivers luxurious features typically found in expensive brands — all at a fraction of the cost! Just imagine the adventures you could embark on and the experiences you could create with all that money saved! The possibilities are endless!

Intentionality

Sabre intentionally designs each floor plan to maximize every inch of space for ultimate usability and convenience. With a focus on efficiency, we offer a variety of smart storage solutions in every unit, including cleverly hidden storage options, ensuring you can fully utilize your space and enjoy a clutter-free experience.

OUR MISSION

At Sabre, we are committed to redefining the RV experience by delivering high-quality, luxury 5th wheel trailers that remain accessible to all. Our mission is to combine exceptional craftsmanship, innovative design, and affordable pricing, allowing families and adventurers to explore the open road without compromise. We strive to create a community of enthusiasts who value comfort, style, and unforgettable journeys, all while enjoying the freedom of affordable luxury.
